

39"

FEATURES

Eurofase Fire-Rated box is built with fire-resistant materials to enhance safety and prevent the spread of fire in commercial and residential spaces. Crafted with durable materials to withstand the rigors of installation and provide long-lasting performance.

The included junction box should only be used if it remains accessible. If it is hidden or inaccessible, please bypass it and connect to the nearest accessible junction box. Our team will provide the part number for the required whip, which is available in lengths ranging from 10 ft to 75 ft.
